## MEMORANDUM FOR THE RECORD

SUBJECT: Meeting with [REDACTED]

25X1

1. Mr. Lundahl met with [REDACTED] on Wednesday the 29th of March to review [REDACTED] activities in the construction of a new building south of [REDACTED]. [REDACTED] described their plans and hopefully they were trying to build enough security guards in the walls and doors that would permit them to qualify for the Agency security standards.

2. [REDACTED] pointed out a very interesting thing to Mr. Lundahl recognizing how interested we were in the subject of the DIA or the MIA. [REDACTED] indicated that it had come to his attention that one of the supporters of the idea for the NPIC, being a part of the MIA package, was none other than our old friend Mr. W. O. Baker of the President's Scientific Advisory Counsel. It appears that Dr. Baker feels that there might be some real advantages in having the NSA, the NIC, as well as the NPIC, indigenous to the MIA and at least he had been favorably disposed to these discussions that have been accomplished up to the present time.

3. I alerted Mr. Amory to Bill Baker's interest and disposition along this line so that he or Mr. Bissell or Pete Scoville in any discussion that might follow with Baker might probe him further on the subject and to open his eyes to some of the other losses that may be incurred as well as the national gain if this were to be achieved. Mr. Amory was extremely interested in this and made note of it and I would anticipate that Bill Baker will probably be engaged in discussion on this thing with Mr. Amory or Mr. Bissell or Dr. Scoville when either or all of them have the next chance at him.

ARTHUR C. LUNDAHL
